My Laser experience with Ayesha has been fantastic with great results. So don't think and book your consultation at the best laser hair removal clinic in the North West.

Been having my laser done at the laser clinic and I have seen brilliant results.

The staff are brilliant and polite. I would definitely recommend this place for your laser treatments.

Thought that I would try the teeth whitening just to see if it worked. I thought that my teeth looked good for my age but when I saw the results I was amazed. I cannot stop smiling

They have the latest machines, which makes a noticeable difference. The service is top-notch, and they really go out of their way to make you feel comfortable throughout the process.

I've had some bad experiences with other places in the past where my skin got burnt. The Cupping Clinic is really professional and I've had no issues. A fantastic experience every time!

I have been having laser treatment for 8 months now, really happy with my results so far. Always a fantastic service and makes sure I am 100% comfortable at every appointment.
